Help Stop Poaching!

Poaching is a crime

Simply defined "poaching" is any illegal taking of fish, game or nongame wildlife.

- It is not a crime committed against the Division of Wildlife Resources, but a crime affecting all citizens of the State of Utah.
- Poachers steal from consumptive and nonconsumptive users alike. Present and future generations of law abiding outdoorsmen are the victims.
- Poachers erode public support of hunting and fishing.

(800) 662-DEER
HelpStopPoaching@utah.gov
*DEER

They threaten the existence of our sport. In short, poaching is a serious crime, and

poachers are nothing more than thieves.

Many entities in the private sector are partnering with the DWR to help protect our wildlife resources.

For example, UBET Wireless and Cellular One are making it possible for most wireless phone users to report poaching — free of charge.

Both companies are donating roaming and air charges for calls originating in many parts of rural Utah, no matter who your wireless provider is.

To contact the DWR Help Stop Poaching hotline on your wireless phone, simply dial *DEER and hit send.

Take a stand

Defend wildlife and the right of future generations to enjoy it

Photos on this page represent a small percentage of animals poached in Utah.

In 2000 and 2001, DWR Conservation Officers investigated the illegal killing of 591 deer and 442 elk.

Do your part and call the Help Stop Poaching hotline to report violations: 1-800-662-DEER (3337).

Ethics: *"A peculiar virtue in wildlife ethics is that the hunter ordinarily has no gallery to approve or disapprove of his conduct. Whatever his acts, they are dictated by his own conscience, rather than by a mob of onlookers. It is difficult to exaggerate the importance of this fact."* —Aldo Leopold

Natural Resources MAP & BOOK STORE

1594 West North Temple, Salt Lake City, UT
7:30 a.m. - 5:00 p.m. Monday-Friday

New book: Access to Wildlife Lands in Utah

The Utah Division of Wildlife Resources has long recognized the important role habitat plays in maintaining diverse fish and wildlife resources. Toward that end, over 90 Wildlife Management Areas (WMAs) have been established around the state. Virtually all of these lands are open for some type of wildlife-oriented public use.

One hundred eight WMAs and significant units within those WMAs are included in this book. The book also lists state fish hatcheries and fishing access locations.

The maps in this book were created by adding DWR land ownership information to available land status and topographic base maps. We use land status base maps so users could see adjacent land ownership patterns.
